SUMMARY

Full Stack Web Developer Certification from UCR Extension's Coding Bootcamp with background in High School Education. Challenge loving and drive for growth and knowledge. Willingness to work and collaborate with a team. Great at developing relationships with fellow coworkers, and willing to lend a hand and fight for what's right. Organized and capable of leadership. Effective communicator, in both speaking and writing, who is both logical and empathetic. Led group projects throughout certification to success by taking charge and issuing roles.

TECHNICAL SKILLS

Languages: HTML, CSS, JAVASCRIPT, NODE.JS, EXPRESS, MYSQL, Materialize, Bootstrap, JQuery, Heroku deployment, UI/UX Design,

PROJECTS

COVID-19Stats | github.com/dglassick | github.com/dglassick/covid-group-project.github.io

- Project used api calls to pull current COVID-19 stats. Uses a heatmap to show a timelapse of the infections, deaths, and recoveries.
- Led development on the entire project and helped divide the roles with great teamwork
- Created the layout using Bootstrap
- Created the logic to display the maps
- Application uses APIs to create the country and news data

Code Hunters | github.com/dglassick | <https://github.com/dglassick/code-hunters-gp2.github.io>

- Project used api calls to pull location to allow the user to filter through a list of employers/employees based on their coding language and location.
- Was involved in all development for project: setting up the application, handlebars, routes, api call, orm/mysql, javascript, and jquery
- Used Javascript, an API, Handlebars, JQuery, Materialize, MYSQL, Node.js, Express.js, HTML, and CSS
- Application was deployed to heroku. Link is <https://fast-stream-44549.herokuapp.com/>
